Blue Star Limited
Investor Update
Q4FY20 & FY20

Good morning ladies and gentlemen, this is Neeraj Basur. We also have on the call today, our Managing Director, Mr. B Thiagarajan. I will be providing you an overview of the results for Blue Star Limited for the quarter and the year ended March 2020.

I. FINANCIAL HIGHLIGHTS FOR FY20

A discussion of the last quarter's business performance and associated financial results needs to be contextualized around the unprecedented health and economic crisis triggered by the COVID-19 pandemic across the globe. The spread of this pandemic in China in January saw supply side disruptions and there were concerns with regard to availability of material during summer season. Consequently, all manufacturers including Blue Star accelerated shipments of raw materials and components in the second half of February. However, as the first signs of the pandemic emerged in India, from the second week of March primary as well as secondary sales specifically for room air conditioners slowed down. As the virus began to spread and a nationwide lockdown was enforced, execution of orders and consequently revenue generation from all other businesses also came to a halt in the second fortnight of March.

These events leading up to March compounded the magnitude of the problem for most Indian manufacturers and sellers in the AC&R segment. On the one side materials that were already ordered for faster delivery in February had begun to arrive in the Indian ports and on the other hand, the supply chain disruption in India coupled with the nationwide lockdown caused a steep decline in the billing for all the players including Blue Star. The resultant stress on cash flows was profound, requiring swift actions to rebuild adequate liquidity on the Company's Balance Sheet, so as to meet external obligations and commitments. In addition, the Company focused on ensuring the health, safety and well-being of its employees and their families while the lockdown continued. Most back end processes could function seamlessly with employees working from home. Investments earlier made in digitization of critical processes and the IT infrastructure support ensured that these processes could function with minimal disruption. Despite challenges, the Company continued to serve the needs of essential services such as healthcare, pharma, banking and financial institutions.

Overall, the Company has ensured business continuity within the permissible norms and regulations. SOPs have been prepared to ensure safe resumption of operations across our factories and offices as and when they are permitted to open. As on date, the Company's factories at Dadra and Wada as well as a few offices including Delhi, Kolkata and Bangalore are operational.

Now moving to the discussions on Q4FY20 performance, the Company's revenue from operations maintained impressive growth momentum till February 2020. Due to the significant demand and supply chain disruptions across India in the month of March, the Company fell short of revenue and profit across all segments to the tune of Rs 400 cr and Rs 70 cr respectively.

In the above background, the Company's revenue from operations registered a modest growth for the full year, FY20.

Financial highlights for the year ended March 31, 2020 on a consolidated basis, are summarized below:

- Revenue from operations for FY20 was Rs 5360.19 cr as compared to Rs 5234.84 cr in FY19, a growth of 2.4%.
- EBIDTA (excluding other income and finance income) for FY20 was Rs 282.78 cr as compared to Rs 346.54 cr in FY19.
- PBT before exceptional items was Rs 210.02 cr in FY20 as compared to Rs 248.46 cr in FY19.
- Tax expense for FY20 was Rs 65.32 cr as compared to Rs 41.99 cr in FY19. Effective tax rate in FY20 was 31.7% as against 16.7% in FY19 due to reversal of Deferred Tax Asset created in FY19, arising from higher profitability in Blue Star Engineering and Electronics.
- Net profit for FY20 was Rs 143.25 cr as compared to Rs 190.06 cr in FY19.
- Carry-forward order book as at March 31, 2020 was Rs 2946.59 cr as compared to Rs 2430.07 cr as at March 31, 2019, an increase of 21.3%.
- Tight management of inventories and receivables, coupled with reduced billing in the month of March resulted in the reduction of Capital Employed to Rs 951.13 cr as on March 31, 2020 from Rs 1121.50 cr as on March 31, 2019.
- Disruptions in the operating cash flow coupled with the requirement to meet external obligations in the month of March necessitated additional borrowings during the last few days of the year. However, on the back of tight working capital management earlier throughout the year, borrowings reduced to Rs 155.00 cr as on March 31, 2020 (debt equity ratio of 0.21) as compared to a net borrowing of Rs 243.60 cr as on March 31, 2019 (debt-equity ratio of 0.28).

II. BUSINESS HIGHLIGHTS FOR FY20

Segment I: Electro-Mechanical Projects & Commercial Air Conditioning Systems

Segment I revenue was Rs 660.39 cr in Q4FY20 as compared to Rs 842.31 cr in Q4FY19, a decline of 21.6%. Segment result was Rs 3.17 cr (0.5%) in Q4FY20 as against Rs 36.29 cr (4.3%) in Q4FY19. Shortfall of revenue in March led to a decline in segment profitability. In addition, taking into consideration the outlook for financial stress in the commercial real estate and infrastructure sectors, the Company has been prudent to make additional provisions for potential doubtful receivables.

In FY20, segment revenue was Rs 2826.67 cr as against Rs 2748.11 cr in FY19, a growth of 2.9%. Segment result was Rs 120.26 cr (4.3%) in FY20 compared to Rs 150.85 cr (5.5%) in FY19. Order inflow during the year was Rs 3104.67 cr as compared to Rs 2951.98 cr in FY19, a growth of 5.2%.

1. Electro-Mechanical Projects business

We continued to maintain our leadership position in the integrated Electro-Mechanical space in India. However, the lockdown situation significantly affected revenues and job closures in Q4FY20.

Order inflows which started slowing down in Q3FY20 due to the liquidity stress in the real estate and infrastructure sectors slowed down further in Q4FY20 due to the weak sentiments caused by the spread of the pandemic.

Post the lifting of the lock down, a detailed evaluation of each and every project would be carried out to ensure credit worthiness of customers, visibility of positive cash flows and margin generation on execution of various projects.

Carried forward order book of the Electro-Mechanical Projects business was Rs 2039 cr as on March 31, 2020 as compared to Rs 1716 cr as on March 31, 2019, an increase of 19%.

Segment-wise break-up of the carry forward order book of the Electro-Mechanical Projects business is as follows:

Application Segment	Share
Office (IT/Non IT)	30%
Metro Rail	15%
Hospitals	12%
Industrial	10%
Power Generation & Distribution	5%
Malls	3%
Others	25%

2. Commercial Air Conditioning Systems

Order booking and growth momentum in this business was also impacted in Q4FY20 due to the spread of pandemic.

We however continued to consolidate our market share and maintained leadership position in the Ducted Systems in Q4 FY20 and improved market share in Chillers and VRF categories. The newly launched products such as the next generation Inverter Ducted, Water Cooled VRF, Air Cooled VFD Screw Chiller and Configured Oil Free Chiller gained good traction and market acceptance.

Key segments that contributed to revenue during the quarter were Government, Hospitals, Builders and Educational Institutions.

Major orders bagged in Q4FY20 were from Airport Authority of India (Chennai) and Avenue Super Market (Multiple locations).

3. International Business

Our international business continues to focus on the Middle East, Africa and SAARC countries and grow steadily. Our brand building initiatives through seminars and exhibitions in Middle East, SARRC and Africa enabled us to gain good traction in the market.

Our Joint venture in Qatar that executes MEP projects continued to do well. However, order inflow and pace of execution were impacted in Malaysia due to challenging economic conditions.

We continued to invest in strengthening our brand in select international markets.

Segment II: Unitary Products

Segment II revenue was Rs 596.28 cr in Q4FY20 as compared to Rs 703.63 cr in Q4FY19, a decline of 15.3%. Segment result was Rs 43.75 cr (7.3%) in Q4FY20 as compared to Rs 73.32 cr (10.4%) in Q4FY19. As explained earlier, segment results were impacted due to the loss of sales in the month of March, which is a key month in the peak selling season.

Revenue grew to Rs 2300.61 cr in FY20 as against Rs 2268.97 cr in FY19, a growth of 1.4%. The segment result was Rs 162.27 cr (7.1%) in FY20 as compared with Rs 185.92 cr (8.2%) in FY19. Segment II results were lower due to higher spend on advertising and sales promotion and lower sales in the month of March.

1. Room Air Conditioner business

After a good start to the quarter with volumes picking up in February due to the early onset of summer, our revenue de-grew in Q4 FY20 over Q4 FY19 in line with the market de-growth due to the supply chain and demand disruptions through the month of March.

Our market share grew marginally to 12.5% in FY20 as compared to 12.3% in FY19.

Given the fact that we are strong in tier-3, 4 and 5 markets which are comparatively less impacted by COVID-19, we expect to gain momentum from Q2FY21 onwards. Further, e-commerce sales also will accelerate. The delivery and installation infrastructure with adequate safety norms are in place.

2. Commercial Refrigeration business

This business performed well over most of FY20 aided by the growth in the ice-cream, processed foods, healthcare and hospitality sectors before getting impacted adversely in Q4Y20.

We continued to maintain leadership position and grew well in the Deep Freezers and the Water Coolers businesses and gained market share in Bottled Water Dispensers. Our new lines of business namely, Commercial Kitchen, Medical Refrigeration and Supermarket Refrigeration also gained good traction.

Major orders bagged in Q4FY20 were from Reliance Retail, Amul, Vadilal, Dinshaw, Top & Town and Hatsun Agro Products Limited.

Healthcare, pharma and processed food segments offer attractive growth potential for this business.

3. Water Purifier business

We continue to stay focused on establishing our brand as a trusted one in the category, with well-engineered and the reliable products including the ones that offer alkaline water for boosting immunity, backed by superior service. We have established ourselves as one of the leading brands in the e-commerce channels, and expect this business to be e-commerce driven in the near future. Segment II results were impacted by around 80 bps due to investment in water purifiers category primarily in marketing, brand building and R&D. These initiatives coupled with comprehensive product range across price points helped to achieve market share of 2%.

Given the growing concerns on health and immunity, the demand for water purifiers is set to grow and we have set ourselves a market share target of 4% in FY21. The business is poised to break even next year.

Segment III: Professional Electronics and Industrial Systems

Segment III revenue was Rs 42.69 cr in Q4FY20 as compared to Rs 49.90 cr in Q4FY19. Segment result was Rs 7.50 cr (17.6%) in Q4FY20 as compared to Rs 16.08 cr (32.2%) in Q4FY19.

In FY20, segment revenue was Rs 232.91 cr as against Rs 217.76 cr in FY19, a growth of 7.0%. The segment result grew to Rs 54.34 cr (23.3%) in FY20 as compared with Rs 43.78 cr (20.1%) in FY19.

We expect the Indian digital payment sector to grow further in the current scenario and create more opportunities for Data security business, in the short term. Further, a probable increase in Government funding towards Healthcare systems is also expected to create opportunities for the Healthcare business. However, due to potential cut backs in capex of Government and private sectors, some of the segments such as Testing Equipments may potentially face challenges in FY21.

With the wide portfolio of products and solutions forming part of our offerings, the prospects for this business segment is positive.

III. BUSINESS OUTLOOK

As normalcy is gradually being restored, the Company is focused on commencement of order execution and revenue generation across all segments with liquidity management as the key priority. The spread of the pandemic and continuation of the stringent nationwide lockdown in India in the months of April and May has taken place during the peak selling season for Segment II. The Company is tracking Green, Orange and Non-containment Zones in various geographies to prioritize sales. The Company is in the process of renegotiating the prices of input raw materials and components and also credit terms with its vendors. As far as Segment I is concerned, the work is in progress to identify projects which are ready for restart, reassessment of credit profiles of the customers, timelines and remobilization of

construction manpower. At the same time, several cost cutting initiatives are being undertaken. It is too early to provide any guidance on the full financial impact arising out of the pandemic on the operations of the Company.

We will take necessary steps to provide adequate liquidity support to all our businesses as they recover from the current disruption. Accordingly, fund raising plans for the short, medium and long term are being strategized to ensure adequate availability of capital and liquidity across all durations. As in the past, the Company will endeavor to sustain this phase in a prudent, balanced and agile manner and emerge stronger once the crisis gets over to resume on the growth and expansion trajectory.

With that ladies and gentlemen, I am done with the opening remarks. I would like to now pass it back to moderator, who will open up floor to questions. Mr Thiagarajan and I will try and answer as many questions as we can. To the extent we are unable to, we will get back to you via e-mail.

With that, we are open for questions.

Ending remarks

Thank you very much, Ladies and Gentlemen. With this, we conclude this quarter's earning call. Do feel free to revert to us in case any of your questions were not fully answered and we will be happy to provide you additional details by email or in person.

* The Parent commenced its Platinum Jubilee year on September 27, 2018. To mark the momentous milestone the parent held, throughout the year, various events and programmes, ran special media campaigns and printed special publications. Owing to the singular frequency of costs related to the milestone, such costs are recognised as exceptional.

4 Effective April 1, 2019, the Group has adopted Ind AS 116 "Leases" and capitalised assets taken on operating lease. The transition was effected using the "modified retrospective method" and therefore comparatives have not been restated. The opening Retained Earnings have been debited by ₹ 4.20 crore (net of tax). The impact on the profit for the quarter and year are not material.

5 In assessing the recoverability of assets such as inventories, trade receivables, contract assets and their estimated costs to completion, and other assets, based on current indicators of future economic conditions the Company expects to recover the carrying amounts of its assets. The impact of the global health pandemic, COVID 19, may be different from that presently estimated and would be recognised in the financial statements when material changes to economic conditions arise.

6 The Directors have declared interim dividend of ₹ 10.00 per equity share of ₹. 2 each in Q4FY20.

7 Previous period / year figures have been regrouped / rearranged wherever necessary.

NOTES:

1 The Audit Committee has reviewed the above results and the Board of Directors has approved the above results at their respective meetings held on May 12, 2020. Figures for the quarter ended March 31, 2020 and March 31, 2019 are balancing figures between audited figures in respect of the full financial years and the unaudited figures upto the third quarter ended December 31, for respective years, which were subjected to limited review.

2 Exceptional Items :

₹ in Crores

Exceptional Income/Expenses	QUARTER ENDED (Refer Note 1)	QUARTER ENDED (UNAUDITED)	QUARTER ENDED (Refer Note 1)	YEAR ENDED (AUDITED)	YEAR ENDED (AUDITED)
	31.3.20	31.12.19	31.3.19	31.3.20	31.3.19
Profit on sale of Property, Plant and Equipment					15.18
Platinum Jubilee Expenses*	(0.75)	(1.57)	(2.61)	(4.03)	(12.50)
Provision for financial obligation and impairment of investment in Joint Venture					(29.13)
Total	(0.75)	(1.57)	(2.61)	(4.03)	(26.45)

* The Company commenced its Platinum Jubilee year on September 27, 2018. To mark the momentous milestone the Company held, throughout the year, various events and programmes, ran special media campaigns and printed special publications. Owing to the singular frequency of costs related to the milestone, such costs are recognised as exceptional.

3 Effective April 1, 2019, the Company has adopted Ind AS 116 "Leases" and capitalised assets taken on operating lease. The transition was effected using the "modified retrospective method" and therefore comparatives have not been restated. The opening Retained Earnings have been debited by ₹ 4.28 crore (net of tax). The impact on the profit for the quarter and year are not material.

4 In assessing the recoverability of assets such as inventories, trade receivables, contract assets and their estimated costs to completion, and other assets, based on current indicators of future economic conditions the Company expects to recover the carrying amounts of its assets. The impact of the global health pandemic, COVID 19, may be different from that presently estimated and would be recognised in the financial statements when material changes to economic conditions arise.

5 The Directors have declared interim dividend of ₹ 10.00 per equity share of ₹. 2 each in Q4FY20.

6 Previous period / year figures have been regrouped / rearranged wherever necessary.
