## **Blue Star Engineering & Electronics Limited**

### **PRESS RELEASE**

#### **Blue Star Engineering & Electronics inaugurates its new first-of-a-kind Customer Experience Centre for Non-Destructive Testing systems at Thane, Maharashtra**

Blue Star Limited's wholly owned subsidiary, Blue Star Engineering & Electronics Limited (Blue Star E&E), today announced the inauguration of its new Customer Experience Centre for Non-Destructive Testing (NDT) systems, 'NDT CX Centre,' at Thane, Maharashtra. This centre showcases a wide range of the Company's NDT instruments and equipment, and elucidates its related applications for industries such as Automotive, Steel, Heavy Engineering, Aerospace, and Power Generation, amongst others, with an intent to provide the customers with deeper insights into this particular product range offered by Blue Star E&E.

Blue Star E&E, a leading provider of NDT instruments and equipment, has been supporting Indian industries since 1980 with high-quality, high-performance testing and measurement solutions. The Company provides customised semi and fully automated systems to cater to various industrial inspection needs, using technologies such as Ultrasonic Testing, PAUT, Industrial Radiography, Eddy Current Testing, Computed Radiography, and Magnetic Particle Inspection, amongst others. These systems continue to lead the way for the industry, setting many benchmarks in the field of material testing.

Vir S. Advani, Vice Chairman & Managing Director of Blue Star Limited on the occasion said, "A staunch believer in Aatmanirbhar Bharat Abhiyaan, Blue Star's range of best-in-class NDT instruments and equipment have been playing a critical role in quality

control in manufacturing across industries in India, thereby enabling us to, in own way, contribute to the development and growth the manufacturing sector in India.”

Prem Kalliath, CEO of Blue Star Engineering & Electronics Limited further added, “NDT solutions have evolved significantly over the last decade, and will continue to do so on the back of Industry 4.0 as well as the implementation of various testing standards. Blue Star E&E has always led these initiatives, and will continue to contribute towards NDT 4.0.”

### **About Blue Star Engineering & Electronics Limited:**

Blue Star Engineering & Electronics is a 100% subsidiary of Blue Star Limited, India, managing the Company's Professional Electronics and Industrial Systems business. Over the last six decades, Blue Star Engineering & Electronics Limited has evolved from being a distributor to a system integrator and value-added reseller. Its offerings include Data and Transaction Security Solutions, Healthcare Systems, Non-Destructive Testing (NDT) Solutions, Material Testing Equipment, Plant Growth Chambers, and Industrial Automation Systems.

### **About Blue Star Limited:**

Blue Star is India's leading air conditioning, commercial refrigeration, and MEP (Mechanical, Electrical, Plumbing, and Fire-fighting) contracting company with over 78 years of experience. The Company offers a plethora of cooling solutions, and it has made significant inroads into water and air purification; engineering facilities management; and commercial kitchen and healthcare refrigeration including vaccine refrigeration. The Company's integrated business model of a Manufacturer; Engineering, Procurement and Construction (EPC) services provider; and an After-sales service provider enables it to offer comprehensive solutions for the Residential, Commercial, and Infrastructure segments.
