## Companies

### ATC Recognises 'Unrealised Loss' of \$16 m on Voda Idea OCDs

Kalyan.Parbat@timesgroup.com

Kolkata: American Tower Corporation (ATC) has informed the US Securities and Exchange Commission (SEC) that it has recognised almost a \$16 million (around ₹130 crore) unrealised loss in the first quarter of 2023 on the optionally convertible debentures (OCDs) that were issued to it by Vodafone Idea (Vi), its biggest customer in India.

The company said in a global SEC filing dated April 26 that it "recognised unrealised losses of \$15.7 million for the Vi OCDs held as of March 31, 2023".

The Boston-based tower company added that any unrealised holding gains and losses for the Vi OCDs are recorded in 'other income (expense)' in its consolidated statements of operations for the quarter ended March 2023.

"ATC's unrealised loss seems largely triggered by the near 15% fall in the Vi share price from the time the OCDs were issued in February to the end of the March quarter, 2023," a sector analyst told ET on condition of anonymity. In late February, cash-strapped Vi had allotted OCDs worth ₹1,600 crore to ATC's wholly owned India unit, ATC Telecom Infrastructure Pvt Ltd (ATC TIPL).

The proceeds are being used by Vi to clear its dues to the US tower firm. Vi owes ATC an estimated ₹2,000 crore.

When the issuance of OCDs to ATC's India unit was concluded on February 28, the Vi stock was priced at ₹6.83. But it was down 14.8% at ₹5.82 on March 31, amid the telco's continuing financial struggles and its inability to close its pending external fundraising.

ATC informed the SEC that Vi's OCDs will mature in two tranches of ₹600 crore each in August 27, 2023 and August 27, 2024.

### Tata Power Q4 Profit Rises 48% to ₹939 crore

Our Bureau

New Delhi: Tata Power reported a ₹939 crore consolidated net profit for January-March 2023 quarter, up 48% from a year earlier, boosted by higher revenue, reduced fuel cost and a lower base of last year.

Revenue for the quarter was up 6% on year at ₹12,755 crore led by the transmission and distribution business.

Ahead of the results, the company's shares closed unchanged at ₹203.75 on the BSE on Thursday.

"Tata Power's PAT has risen for the 14th straight quarter on a year-on-year basis," the company said.

Power generation segment revenue, before inter-segment adjustment, fell year-on-year to ₹2,882 crore in the reporting quarter from ₹3,022 crore a year earlier. The transmission and distribution segment revenue grew to ₹8,295 crore from ₹7,127 crore. The renewable energy revenue dropped to ₹2,587 crore from ₹2,845 crore last year when a one-off payment lifted the top line.

The company's diversified utility-scale order book stood at 4 gw amounting to ₹17,468 crore while the rooftop solar order book was ₹1,900 crore.

The last quarter of the previous financial year saw an upswing with ₹1,600 crore worth of orders received, the company said. The company has set a capital expenditure target of ₹12,500 crore for the ongoing financial year, nearly double that in FY23, managing director Praveer Sinha said.

### Dabur Q4 Profit Falls Marginally on Inflation, Discounts

Our Bureau

New Delhi: Packaged consumer goods maker Dabur India on Thursday reported a marginal 0.5% decline in its consolidated net profit to ₹292.76 crore for the fourth quarter ended March 2023, impacted by inflation and consumer discounts. The company, which had reported consolidated net profit of ₹294.34 crore in the fourth quarter of 2021-22, said it would accelerate growth momentum with investments despite near-term concerns around inflationary pressures.

The maker of Vatika shampoo and Real Juice reported consolidated revenue from operations at ₹2,677.8 cr, a 6.4% increase over ₹2,517.8 cr a year-ago.

Dabur chief executive Mohit Malhotra said in an earnings statement that the company reported broad-based growth in key categories and market share gains in an environment where high inflation continued to impact consumption.

"During the year, we faced high inflation, which was partly mitigated by price increases to the tune of 6%. Consumer promotions were offered to soften the impact of price hikes on consumption, which resulted in flattish value-weighted volumes for both the fourth quarter and the year," Malhotra said.

The company said its power brand strategy and distribution footprint led to "steady performance" during Q4 and the full year.

Higher pension under EPS: Additional 1.16% contribution to be drawn from employers' payout

KR Srivats  
New Delhi

The Labour Ministry has clarified that the additional contribution of 1.16 per cent of basic wages for subscribers opting for higher pension under the Employees Pension Scheme (EPS) run by EPFO would be met out of the overall 12 per cent employers' contribution.

This would mean that all those EPFO members who are choosing to contribute on their actual basic wage which is higher than the threshold of ₹ 15,000 per month for getting higher pension will not have to contribute this additional 1.16 per cent towards EPS.

The move will be retrospective in nature in line with the directions issued by the Supreme Court. For implementing these decisions, the Labour Ministry has now issued two notifications.

"It has been decided to draw 1.16 per cent additional contribution from within the overall 12 per cent of the contribution of the employers into the provident fund," a Labour Ministry statement said.

#### EPF & MP ACT

The Labour Ministry highlighted that the spirit of the Employees' Provident Fund and Miscellaneous Provisions Act 1952 (EPF & MP Act) and the Code (Code on Social Security) do not envisage contribution from the employees into the pension fund.

The Ministry also said that with the issue of the two notifications, all the directions of the Supreme Court contained in judgment on November 4, 2022 have been complied with.

At present, the government pays 1.16 per cent of basic wages of up to ₹15,000 (threshold basic wage) as subsidy for contribution towards EPS. The employers contribute 12 per cent of basic wages towards social security schemes run by the EPFO.

As much as 8.33 per cent out of the 12 per cent contributed by the employers goes into the EPS. The remaining 3.67 per cent is credited into the Employees Provident Fund. The apex court had directed the authorities to make necessary adjustments in the Scheme within a period of six months.

The Labour Ministry had recently extended the deadline to opt for higher pension under EPS to June 26.

CIL to invest ₹91,000 cr for diversification, says CMD Prasad

Press Trust of India  
Ranchi

Domestic coal major Coal India Ltd (CIL) will pump in ₹91,000 crore in various projects, including diversification and mine development, by 2025-26, PM Prasad, Chairman and Managing Director of CIL-arm Central Coalfields Ltd (CCL), said on Thursday.

The Public Enterprises Selection Board (PESB) on Wednesday recommended the name of Prasad for the post of Chairman and Managing Director (CMD) of Coal India.

"₹91,000 crore will be spent on diversification and other projects put together ... These will be pumped in till 2025-26," Prasad told PTI.

He said a sum of ₹36,000 crore will be spent on coal gasification projects while another ₹46,000 crore will be pumped-in mining developers cum operators and other contracts. The remaining amount will be spent on various other projects.

CIL has already identified 15 green-field projects having a total project-rated capacity (PRC) of 168.58 million tonnes (MT) per annum for implementation through MDO mode.

Out of these 15 projects, Letters of Award have been given to nine projects to be implemented through MDOs. These nine projects have a production capacity of around 127 mt.
